

Capability Statement

We are thrilled to introduce KNL Engineering and Mechanical Pty Ltd, a dynamic and innovative company dedicated to providing exceptional service. With a commitment to excellence and a passion for exceeding customer expectations, we are excited to showcase our capabilities and explore potential avenues of collaboration with your organisation.

KNL's mobile maintenance team is equipped to deliver reactive maintenance, planned corrective maintenance, and minor works across your facilities. Operating from our fully equipped service vehicles, our skilled trades personnel can respond quickly to site requirements, providing safe, efficient, and cost-effective solutions. The KNL team currently travels extensively to support clients across multiple locations, ensuring consistent service delivery and rapid response times

Owners - Keith and Lindsay Windress

At KNL, we pride ourselves on being a family locally run business for over 17 years. With a team of highly skilled professionals and state-of-the-art technology, we deliver solutions that are not only cutting-edge but also tailored to meet the unique needs of each of our clients.

Innovation, reliability, and customer satisfaction are at the forefront of everything KNL do. Partner with us today and experience the difference of working with a trusted industry leader committed to your success.

The safety and wellbeing of our employees, customers, contractors and the wider community is our highest priority and underpins every aspect of our operations.

To demonstrate our commitment to best practice, continuous improvement and responsible business management, KNL maintains internationally recognised management system certifications to ISO 9001, ISO 14001 and ISO 45001.

These certifications provide a robust framework for managing quality, environmental and health and safety performance across our business, supporting consistency, accountability, regulatory compliance and continual improvement.

Our HSEQ approach is embedded throughout project planning and delivery, from initial risk assessment and mobilisation through to completion and review. We work collaboratively with our people, clients, contractors and supply chain partners to identify risks, maintain high standards and continually improve performance.

Mission, Values and Vision

Our Mission

Provide industry best practice to our customers and assist them to meet their goals and requirements beyond their expectations

To provide quality workmanship and exceptional service outcomes, ensuring all works are delivered safely, efficiently, on time, and within budget.

To be focused on continuous improvement across our company

To provide for and nurture a team of highly skilled and expertly trained professionals with similar values and outlook

We achieve this through the establishment of measurable objectives and targets; and by establishing a corporate culture that enables continual improvement and growth of our company and employees

Our Core Values

PEOPLE FIRST

We put people at the heart of what we do.

RESPECT

We build trust through respect.

DEPENDABLE

We deliver on our commitments.

PRACTICAL

We find solutions that work.

ACCOUNTABLE

We take ownership of outcomes.

BETTER TOGETHER

We work together to achieve more.

Our Vision

To be a trusted, innovative and enduring provider of integrated engineering, maintenance and industrial solutions, delivering the expertise, capability and reliability our clients need to keep their operations safe, efficient and performing at their best.

We aim to build lasting partnerships through exceptional service, technical excellence and a commitment to the people, industries and communities we support.

Why Choose Us

Specialised knowledge and expertise

We are one of the few companies to offer a comprehensive, end-to-end service for project management, repairs, maintenance, services and sales across our entire scope of deliverables. KNL is WPCG Compliant and NMI Certified with specialised knowledge and expertise in our field.

Our centrally located, fully equipped workshop enables efficient in-house repairs and maintenance, while our team is structured to manage multiple projects simultaneously. Being 'Site Ready' we ensure prompt, professional service tailored to our clients' operational needs.

Our Divisions

**Diesel
Maintenance**

**Fuel System
Maintenance**

**Rotating
Equipment**

**Fabrication
Services**

**Tanker and
Bunker Services**

Our Diesel Maintenance team covers the Gladstone and CQ Region providing all servicing and maintenance requirements to keep your Equipment and vehicles operating efficiently and safely.

With the ability to work onsite and remotely we can assist with all breakdowns and repairs. Our team has 20 years experience in the Diesel trade and worked in all industries in and around Gladstone.

Our understanding of safety and site requirement are second to none, we pride ourselves on safety and our great quality of work.

Our Services

- Diesel maintenance diagnostics servicing and repairs
- Trucks/Trailers & LV Light Vehicles.
- EWP's (Knuckle booms, Man-lifts, Spider lifts, Scissor lifts)
- Mobile plant, Generators, compressors and pumps.
- 10 yearly inspections on EWP's and VLC's
- COI roadworthy inspection LV & trucks up to 16T
- DPF Diagnostics, Inspections, Repairs,
- DPF Disassembly and Ultra-sonic clean - LV/Trucks.
- Automotive Air-conditioning diagnostics and repairs.
- Onsite service and maintenance.
- Auto electrical diagnostics and repairs.

KNL's Fuel Systems Maintenance Division provides comprehensive installation, maintenance, repair, calibration, and compliance services for fuel storage and dispensing facilities. Our experienced team delivers end-to-end solutions for commercial, industrial, mining, and retail fuel infrastructure.

Our capabilities include:

- Fuel bowser servicing, repairs and calibration
- Fuel meter testing, calibration and certification
- Fuel pump installation, maintenance and repairs
- Above-ground and below-ground fuel storage tank installation, inspection and maintenance
- Refurbishment of accident-damaged and out-of-service fuel pumps and dispensing equipment
- Preventative maintenance programs
- Reactive maintenance, fault diagnosis and repairs
- Pump and compressor maintenance and repairs
- UPP welding services
- Pipeline testing, inspection and repairs
- Pipework and steel fabrication
- Installation and commissioning of fuel systems
- Technical service and support
- WPCG Compliant
- NMI Certified

FORECOURT INSTALLATION & MAINTENANCE SERVICES

KNL delivers complete forecourt construction, installation and maintenance solutions, including:

- Fuel tank and bowser installations
- Site excavation and civil works
- Fuel line and dispenser installation
- Forecourt upgrades and enhancements
- Gauging systems installation and maintenance
- Meter testing, calibration and certification
- On-site maintenance and repair services
- Facility maintenance and infrastructure repairs

With a strong focus on safety, compliance and operational reliability, KNL provides tailored fuel system solutions that maximise asset performance and minimise downtime.

Rotating Equipment, Valves & Alignment

Keeping critical assets operating at peak performance.

KNL's Rotating Equipment, Valves & Alignment team provides specialist maintenance, repair and reliability solutions that keep your operation running safely and efficiently. From pumps, compressors and motors to valves, fans and complete rotating assemblies, our experienced technicians combine precision engineering with advanced diagnostic technology to minimise downtime, improve reliability and maximise asset life.

Whether delivering laser shaft alignment, vibration analysis, dynamic balancing or complete equipment overhauls, we provide practical, cost-effective solutions that optimise performance and reduce the total cost of ownership. With both workshop and on-site capabilities, KNL is a trusted partner for planned maintenance, shutdowns, breakdown response and long-term asset reliability.

Our Expertise

- Rotating Equipment Repairs & Overhauls
- Pumps, Compressors, Fans & Motors
- Valve Repair & Maintenance
- Precision Laser Shaft Alignment
- Vibration Analysis & Condition Monitoring
- Dynamic Balancing (Workshop & On-site)
- Installation & Commissioning
- Technical Field Services

Delivering Results

- ✓ Increased Equipment Reliability
- ✓ Reduced Downtime & Maintenance Costs
- ✓ Extended Asset Life
- ✓ Improved Plant Performance
- ✓ Precision Diagnostics & Engineering Support

Welding, Fabrication & Maintenance Services

KNL delivers comprehensive welding, fabrication, mechanical maintenance, and asset integrity solutions to clients across the industrial, mining, energy, Hard infrastructure, and manufacturing sectors.

Operating from a fully equipped workshop and supported by experienced personnel, we provide both workshop and field services tailored to meet project, shutdown, maintenance, and capital works requirements.

Our capabilities include:

- Pressure piping and coded welding applications
- Structural steel and heavy fabrication
- Workshop and onsite fabrication services
- Carbon steel, stainless steel, aluminium, duplex, and specialised alloy welding
- Installation, commissioning, and startup support for mechanical and process equipment
- Planned, preventative, and breakdown maintenance services
- Plant, facilities, and infrastructure maintenance and repairs
- Tank inspections, repairs, refurbishments, and modifications
- Pipeline repairs, pressure testing, and integrity support
- All welding processes including MIG, TIG, Stick, FCAW
- Surface preparation, abrasive blasting, and industrial coating applications
- Shutdown execution and project support services

Quality Assurance & Compliance

KNL is committed to delivering safe, compliant, and high-quality outcomes across all projects. Welding, fabrication, and maintenance activities are completed in accordance with client specifications, applicable Australian Standards, approved welding procedures, and project-specific quality requirements.

Our team combines practical field experience with strong project delivery expertise, enabling us to safely execute works ranging from routine maintenance and repairs through to complex fabrication, installation, commissioning, and asset upgrade projects.

At KNL we provide experienced and qualified personnel to support safe, efficient, and compliant tanker discharge and bunkering operations within port environments. Our workforce integrates seamlessly with terminal and port-based operations, delivering around the clock support to ensure continuity of service and operational efficiency.

Our Capabilities

- **Tanker Discharge Operations**
 - Safe execution and monitoring of fuel and liquid cargo discharge activities.
 - Support for vessel-to-shore transfer operations in accordance with site procedures and industry standards.
- **Bunkering Support Services**
 - Assistance with fuel transfer operations, hose handling, connections, disconnections, and associated marine activities.
- **Marine Terminal Operations**
 - Skilled personnel capable of working as part of a site crew or independently in high-risk operational environments.
- **24/7 Operational Coverage**
 - Flexible workforce available across a 7-day roster, supporting both day and night operations to meet client requirements.
- **Safety & Compliance Focus**
 - Commitment to maintaining the highest standards of workplace safety, environmental protection, and regulatory compliance.

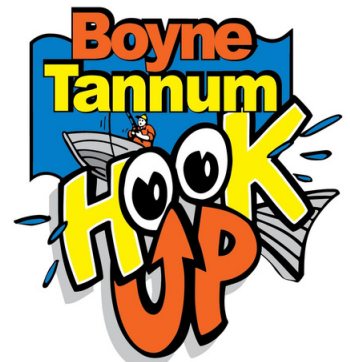

Trusted Relationships. Proven Experience.

Trusted to deliver engineering, mechanical and industrial solutions across a diverse range of industries.

KNL recognises the importance of giving back and proudly supports local sporting clubs, community events, and charitable initiatives through ongoing sponsorship and engagement.

An Experience Focused On You

With a proven track record, accredited management systems, and a team dedicated to delivering exceptional outcomes, KNL Engineering and Mechanical Pty Ltd stands ready to support your next project. We are committed to providing safe, reliable and cost-effective solutions, backed by the expertise, experience and customer focus that our clients have come to trust. Partner with KNL and experience the difference that genuine commitment and technical excellence can make.
